

# Apollo 4" Single Waterway Monitor

## STYLE 3436

Akron Apollo Single Waterway Monitors provide a simple tiller bar control and manual friction brake operation. The full 4" waterway delivers efficient flows up to 2000gpm.

### Features

- Designed for fixed installations in non-corrosive environments
- Durable lightweight Pyrolite construction
- Cast-in turning vanes in each elbow for more efficient flow and improved stream performance
- 360° horizontal and 150° vertical travel
- Elevation 90° above to 60° below horizontal
- A friction lock on both the vertical and horizontal travel
- Built-in pressure gauge and gauge guard
- Gas spring for better balance with various nozzle weights

### Specifications

Style	3436
Weight	37 lbs (16 kg)
Type	Deck Pipe
Material	Pyrolite
Brand	Apollo
Width	17.5in (444.5mm)
Height	18.25in (463.6mm)
Depth	42.19in (1071.63mm)
